connected digital ecosystem
for height safety customers,
distributors, and end users.

**HEIGHT SAFETY.
SIMPLIFIED.**

FIVE DIGITAL TOOLS. ONE STREAMLINED ECOSYSTEM.

Guardian OS brings together six powerful tools built by height safety professionals for height safety professionals. Connect the dots to better height safety with the integrated ecosystem that puts products, services, and insights at your fingertips.

WHERE TO BUY

GABY AI ASSISTANT

GUARDRAIL ESTIMATOR

CUSTOMER PORTAL

ANCHOR & HLL SELECTION TOOL

WORK YOUR WAY

Get immediate answers and consistent support from a trusted partner with 30+ years of height safety leadership.

END USERS

Find the specified
height safety
products and
information you
need quickly.

DISTRIBUTORS

Do business your
way with digital
tools that give you
real-time visibility
and answers
anytime, anywhere.

ENGINEERS & ESTIMATORS

Create system
configurations and
designs quickly to
match project scopes.

SIMPLE, CONSISTENT, AND CONNECTED

Guardian OS brings together everything you need to work safely and efficiently at height, all in one connected place.

WHERE TO BUY

Select and buy products online quickly and confidently to keep jobs operating safely at height.

Locate and confirm the availability of specified products near you in seconds, and seamlessly navigate from product information to purchase.

GABY AI

Meet GABY, your "always-on" AI assistant for finding, recommending, and buying the right height safety solutions.

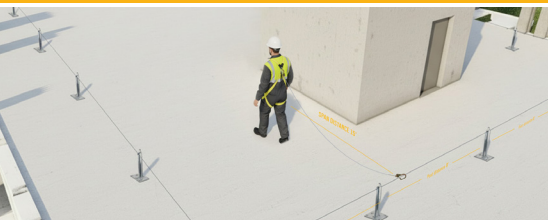

Get immediate answers to product questions 24/7 and access to technical specs, manuals, and compliance docs on demand.

GUARDRAIL ESTIMATOR

Design a job site specific guardrail plan in minutes by uploading a plan or drawing a grid on a map.

Guardian's Engineered Systems team reviews and validates your design, then provides a professional, OSHA-compliant quote. Fast, accurate, and engineer-approved configurations.

ANCHOR & HLL SELECTION TOOL

Plan height safety systems with engineered back confidence.

Identify the right anchors and horizontal lifeline configurations for your specific jobsite. Reduce guesswork and unnecessary risk with expert-backed validation. Receive a quote and path forward you can feel confident about.

CUSTOMER PORTAL

Your dedicated, centralized hub for frictionless ordering, tracking, and confident account management.

Check real-time inventory levels, track order status and delivery updates, and access invoice history, all with built-in tiered tracking.

ABOUT GUARDIAN OS

Over thirty years ago, Guardian introduced the Skyhook roof anchor, setting a standard and a promise: keeping workers safe at height. Today, as technology transforms every link in our industry's value chain, we're anchored by that same commitment. That's why we built Guardian OS, the first connected digital ecosystem for height safety customers, all powered by intuitive tools that make every interaction with Guardian simple, consistent, and connected.
